WESTERN
ENVIRONMENTAL

ENVIRONMENT AND SUSTAINABILITY POLICY

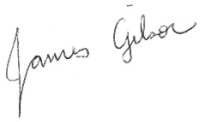

Western Environmental (WEPL) is a specialist environmental consultancy providing testing, monitoring, reporting and administration of environmental aspects for customers.

This Environment and Sustainability Policy recognises the fundamental importance of these concepts to our business. Further, we recognise the value of these endeavours and the importance of their advancement in the broader context of the global environment for the benefit of current and future generations.

WEPL is committed to the following:

- Prevention of adverse environmental impacts as a result of our business activities, products and services.
- Protection of the environment, including prevention of pollution and promoting the efficient use of energy, water and materials.
- Fulfil legal requirements and other compliance obligations to which WEPL subscribe.
- Continual improvement of the environmental management system to enhance performance.
- Increase awareness of our workers, customers and other interested parties with respect to sustainable practices.
- Lead by example and foster confidence and enthusiasm in others with respect to the adoption of sustainable practices

This policy provides a framework for setting environmental and sustainability objectives. This policy shall be communicated to all employees and be available to interested parties.
