WESTERN
ENVIRONMENTAL

QUALITY POLICY

Western Environmental (WEPL) is a specialist environmental consultancy providing testing, monitoring, reporting and administration of environmental aspects for customers.

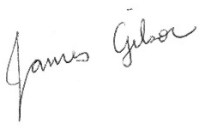

WEPL recognises the importance of managing its activities and resources to achieve its desired results more efficiently. WEPL understands that effective decisions are based on the analysis of data and information, rather than assumptions and estimations.

WEPL is committed to the following:

- Provide quality services to its customers by combining local knowledge and expertise to deliver practical solutions.
- Understand the needs of its current and future customers and provide quality, cost-effective environmental solutions that exceed expectations.
- Provide leadership and unity of purpose, whilst striving to create and maintain an internal environment in which its workers can become fully involved in achieving WEPL objectives.
- Fulfil legal requirements and other requirements to which WEPL subscribe.
- Continual improvement of the quality management system.
- Develop interdependent, mutually beneficial relationships with external providers, enhancing the ability of both to create value.

This policy provides a framework for setting the quality objectives.

This policy shall be communicated to all employees and be available to interested parties.
